

Appendix A – Recreation Trends

National Trends in Recreation

Overall Participation

Approximately 236.9 million people ages six and over reported being active in 2022, which is a 1.9% increase from 2021 and the greatest number of active Americans in the last 6 years. This is an indicator that Americans are continuing to make physical activity more of a priority in their lives. Outdoor activities continue to thrive, recreation facilities have reopened, fitness at home remains popular, and team sports are slowly reaching pre-pandemic participation levels. The chart below depicts participation levels for active and inactive (those who engage in no physical activity) Americans over the past 6 years.

Core vs. Casual Participation

In addition to overall participation rates, SFIA further categorizes active participants as either core or casual participants based on frequency of participation. Core participants have higher participatory frequency than casual participants. The thresholds that define casual versus core participation may vary based on the nature of each individual activity. For instance, core participants engage in most fitness activities more than fifty times per year, while for sports, the threshold for core participation is typically 13 times per year.

In each activity, core participants are more committed and tend to be less likely to switch to other activities or become inactive (engage in no physical activity) than casual participants. This may also explain why activities with more core participants tend to experience less pattern shifts in participation rates than those with larger groups of casual participants. Increasing for the fifth straight year, 158.1 million people were considered CORE participants in 2022.

Participation By generation

The following chart shows 2022 participation rates by generation. Fitness sports continue to be the go-to means of exercise for Boomers, Gen X, and Millennials. Over half of the Gen X, Millennials, and Gen Z generation participated in one type of outdoor activity. Team sports were heavily dominated by generation Gen Z and nearly a third of Gen X also participated in individual sports such as golf, trail running, triathlons, and bowling.

Highlights

Team sports are continuing to recover due to shutdowns during the pandemic. Team sports participation rate increased to 23.2% which is near 2019 participation levels. Pickleball continues to be the fastest growing sport in America by doubling its participation in 2022. Following the popularity of pickleball, every racquet sport also increased in total participation in 2022.

Americans continued to practice yoga, attend Pilates training, workout with kettlebells, started indoor climbing, and while others took to the hiking trail. The waterways traffic had an increase of stand-up paddlers, kayaks, and jet skis. Gymnastics, swimming on a team, court volleyball, and fast-pitch softball benefited from the participation boom created from the Olympics.

Water sports had the largest gain in participation rates. Activities such as jet skiing, scuba diving, and boardsailing/windsurfing all contributed to the 7% increase. Outdoor sports continued to grow with 55% percent of the U.S. population participating. This rate remains higher than pre-pandemic levels with a 51% participation rate in 2019. The largest contributor to this gain was trail running, having a 45% increase over the last five years.

National Trends in General Sports

Participation Levels

The top sports most heavily participated in the United States were basketball (28.1 million), golf (25.6 million), and tennis (23.6 million) which have participation figures well more than the other activities within the general sports category. Baseball (15.5 million), and outdoor soccer (13.0 million) round out the top five.

The popularity of basketball, golf, and tennis can be attributed to the ability to compete with small number of participants, this coupled with an ability to be played outdoors and/or properly distanced helps explain their popularity during the COVID-19 pandemic. Basketball's overall success can also be attributed to the limited amount of equipment needed to participate and the limited space requirements necessary, which make basketball the only traditional sport that can be played at most American dwellings as a drive-way pickup game. Golf continues to benefit from its wide age segment appeal and is considered a life-long sport. In addition, target type game venues or golf entertainment venues have increased drastically (86.2%) as a 5-year trend, using golf entertainment (e.g., Top Golf) as a new alternative to breathe life back into the game of golf.

BASKETBALL
28.1 MILLION

GOLF
25.6 MILLION

TENNIS
23.6 MILLION

GOLF VENUE
15.5 MILLION

BASEBALL
15.5 MILLION

Five-Year Trend

Since 2017, pickleball (185.7%), golf - entertainment venues (86.2%), and tennis (33.4%) have shown the largest increase in participation. Similarly, basketball (20.3%) and outdoor soccer (9.2%) have also experienced significant growth. Based on the five-year trend from 2017-2022, the sports that are most rapidly declining in participation include ultimate frisbee (-31.5%), rugby (-28.1%), and roller hockey (-25.4%).

One-Year Trend

The most recent year shares some similarities with the five-year trends; with pickleball (85.7%) and golf - entertainment venues (25.7%) experiencing some of the greatest increases in participation this past year. Other top one-year increases include racquetball (8.0%), badminton (7.1%), and gymnastics (7.1%).

Sports that have seen moderate 1-year increases, but 5-year decreases are racquetball (8.0%), gymnastics (7.1%), and court volleyball (4.2%). This could be a result of coming out of the COVID-19 pandemic and team program participation on the rise. Similar to their 5-year trend, rugby (-5.8%), roller hockey (-4.0%), and ultimate frisbee (-2.2%) have seen decreases in participation over the last year.

Core vs. Casual Trends in General Sports

General sport activities, basketball, court volleyball, and slow pitch softball have a larger core participant base (participate 13+ times per year) than casual participant base (participate 1-12 times per year). Due to the COVID-19 pandemic, most activities showed a decrease in their percentage of core participants. However, there were significant increases in the percentage of casual participation for basketball, baseball, pickleball, outdoor soccer, flag football, badminton, and indoor soccer in the past year.

National Participatory Trends - General Sports					
Activity	Participation Levels			% Change	
	2017	2021	2022	5-Year Trend	1-Year Trend
Basketball	23,401	27,135	28,149	20.3%	3.7%

National Trends in General Fitness

Participation Levels

Overall, national participatory trends in fitness have experienced growth in recent years. Many of these activities have become popular due to an increased interest among Americans to improve their health and enhance quality of life by engaging in an active lifestyle. The most popular general fitness activities in 2022 also were those that could be done at home or in a virtual class environment. The activities with the most participation was walking for fitness (114.8 million), treadmill (53.6 million), free weights (53.1 million), running/jogging (47.8 million), and yoga (33.6 million).

Five-Year Trend

Over the last five years (2017-2022), the activities growing at the highest rate were trail running (44.9%), yoga (23.0%), Pilates training (14.0%) and dance, step, and choreographed exercise. Over the same period, the activities that have undergone the biggest decline in participation include group stationary cycling (-33.4%), cross-training style workout (-32.1%) and non-traditional/off road triathlons (-28.1%).

One-year trend

In the last year, fitness activities with the largest gains in participation were group-related activities, cardio kickboxing (8.5%), Pilates training (5.8%), and group stationary cycling (5.5%). This 1-year trend is another indicator that participants feel safe returning to group-related activities. Trail running (5.9%) also saw a moderate increase indicating trail connectivity to continue to be important for communities to provide. In the same span, fitness activities that had the largest decline in participation were cross-training style workout (-5.3%), bodyweight exercise (-2.6%) and running/jogging (-2.4%).

Core vs. Casual Trends in General Fitness

Participants of walking for fitness are mostly core users (participating 50+ times) and have seen a 1.5% growth in the last five years.

National Participatory Trends - General Fitness					
Activity	Participation Levels			% Change	
	2017	2021	2022	5-Year Trend	1-Year Trend
Walking for Fitness	110,805	115,814	114,759	3.6%	-0.9%

Participation Growth/Decline:	Large Increase (greater than 25%)	Moderate Increase (0% to 25%)	Moderate Decrease (0% to -25%)	Large Decrease (less than -25%)	

National Trends in Outdoor / Adventure Recreation

Participation Levels

Results from the SFIA report demonstrate rapid growth in participation regarding outdoor/adventure recreation activities. Much like general fitness activities, these activities encourage an active lifestyle, can be performed individually, and are not as limited by time constraints. In 2022, the most popular activities, in terms of total participants include day hiking (59.5 million), road bicycling (43.6 million), freshwater fishing (41.8 million), camping (37.4 million), and wildlife viewing (20.6 million).

DAY HIKING

59.6 MILLION

ROAD
BICYCLING

43.6 MILLION

FRESHWATER
FISHING

41.8 MILLION

CAMPING

37.4 MILLION

WILDLIFE
VIEWING

20.6 MILLION

Five-Year Trend

From 2017-2022, sport/bouldering (174.8%), camping (42.5%), skateboarding (41.3%), day hiking (32.7%), birdwatching (28.6%) has undergone large increases in participation. The five-year trend also shows activities such as indoor climbing (-51.4%), adventure racing (-32.2%) to be the only activities with double-digit decreases in participation.

One-Year Trend

The one-year trend shows that most activities have grown in participation from the previous year. The most rapid growth being in sport/boulder climbing (151.1%), BMX bicycling (8.3%), birdwatching (6.8%), and in-line roller skating (4.7%). Over the last year, the only activities that underwent decreases in participation were indoor climbing (-56.9%), adventure racing (-6.1%), and overnight backpacking (-0.9%).

Core vs. Casual Trends in Outdoor / Adventure Recreation

Most outdoor activities have experienced participation growth in the last five years. Although this is a positive trend, it should be noted that all outdoor activities participation, besides adventure racing, consist primarily of casual users.

National Participatory Trends - Outdoor / Adventure Recreation					
Activity	Participation Levels			% Change	
	2017	2021	2022	5-Year Trend	1-Year Trend
Hiking (Day)	44,900	58,697	59,578	32.7%	1.5%
Bicycling (Road)	38,866	42,775	43,554	12.1%	1.8%
Fishing (Freshwater)	38,346	40,853	41,821	9.1%	2.4%

NOTE: Participation figures are in 000's for the US population ages 6 and over					
Participation Growth/Decline:	Large Increase (greater than 25%)	Moderate Increase (0% to 25%)	Moderate Decrease (0% to -25%)	Large Decrease (less than -25%)	

National Trends in Aquatics

Participation Levels

Swimming is deemed a lifetime activity, which is why it continues to have such strong participation. In 2022, fitness swimming remained the overall leader in participation (26.3 million) amongst aquatic activities.

Five-Year Trend

Assessing the five-year trend, fitness swimming (-3.2%) and swimming on a team (-3.4%) experienced moderate decreases due to the accessibility of facilities during COVID-19. While aquatic exercise (2.1%) saw a slight increase in participation during this same time period.

One-Year Trend

In 2022, all aquatic activities saw moderate increases in participation which can be asserted to facilities and programs returning to pre-COVID-19 pandemic levels. Swimming on a team (2.8%), aquatic exercise (2.7%) and fitness swimming (2.5%) saw moderate increases in participation.

Core vs. Casual Trends in Aquatics

All activities in aquatic trends have undergone an increase in casual participation (1-49 times per year) over the last five years.

National Participatory Trends - Aquatics					
Activity	Participation Levels			% Change	
	2017	2021	2022	5-Year Trend	1-Year Trend
Swimming (Fitness)	27,135	25,620	26,272	-3.2%	2.5%
Aquatic Exercise	10,459	10,400	10,676	2.1%	2.7%
Swimming on a Team	3,007	2,824	2,904	-3.4%	2.8%
NOTE: Participation figures are in 000's for the US population ages 6 and over					
Participation Growth/Decline:	Large Increase (greater than 25%)	Moderate Increase (0% to 25%)	Moderate Decrease (0% to -25%)	Large Decrease (less than -25%)	

National Trends in Water Sports/ Activities

Participation Levels

The most popular water sports / activities based on total participants in 2022 were recreational kayaking (13.6 million), canoeing (9.5 million), and snorkeling (7.4 million). It should be noted that water activity participation tends to vary based on regional, seasonal, and environmental factors. A region with more water access and a warmer climate is more likely to have a higher participation rate in water activities than a region that has a long winter season or limited water access. Therefore, when assessing trends in water sports and activities, it is important to understand that fluctuations may be the result of environmental barriers which can influence water activity participation.

Five-Year Trend

Over the last five years, surfing (37.8%), recreational kayaking (28.7%), stand-up paddling (13.6%) and white-water kayaking (9.0%) were the fastest growing water activities. From 2017-2022, activities declining in participation were water skiing (-14.9%), snorkeling (-12.0%), boardsailing/windsurfing (-11.6%), and sea/touring kayaking (10.6%).

One-Year Trend

In 2022, water skiing (-0.6%) was the only water activity to see a decrease in participation. Activities which experienced the largest increases in participation in the most recent year include jet skiing (7.6%), scuba diving (7.4%), boardsailing/windsurfing (7.2%), and surfing (6.6%).

Core vs. Casual Trends in Water Sports / Activities

As mentioned previously, regional, seasonal, and environmental limiting factors may influence the participation rate of water sport and activities. These factors may also explain why all water-based activities have drastically more casual participants than core participants, since frequencies of activities may be constrained by uncontrollable factors.

National Participatory Trends - Water Sports / Activities					
Activity	Participation Levels			% Change	
	2017	2021	2022	5-Year Trend	1-Year Trend
Kayaking (Recreational)	10,533	13,351	13,561	28.7%	1.6%

Appendix B – Full Community Engagement Results

Statistically Valid Needs Assessment Survey

Please find the full results to Pullman’s Statistically Valid Needs Assessment Survey attached to this final report under the heading ‘**Appendix B – Statistically Valid Needs Assessment Survey**’.

Project Website

Full Survey Results

Question 4: Additional Comments

The final question of the project website’s survey (Question 4) was for respondents to share any additional comments regarding Pullman Parks & Recreation. **The full results to this question can be found below.**

Please keep the PAFC open. Pullman needs accessible indoor public pool access, especially throughout the colder months. I also encourage better management of the pool and facilities, training and using lifeguards for more general upkeep and maintenance, better and timely communication regarding facilities and schedules, and a way to know if management reads comments from the comment box and what the reasons are for doing/not doing those suggestions.
The cracks in the trail surfaces all over town have gotten huge and bone-rattling. Nearly impassable on rollerblades without extra caution. A small program was started in another community that had an e-bike, trailer, and grinder/patcher dedicated to trail maintenance and they fixed over 1,000 bumps. There’s a great presentation to US Trails here: https://www.youtube.com/live/d-4lFxm0jo?si=3PXb9E4TdDtEtV1s
Mary’s Park needs traditional swing sets. Not enough swings for kids
I would like to see something developed for an opportunity to fish in/near Pullman. Something close enough where a kid on a bicycle could get to. Perhaps develop something from empty gravel quarries?
Pullman city parks have been greatly improving in the last few years. We need to keep this up and not let maintenance and aesthetics slip. I worry that Pullman had a bad habit of not focusing on aesthetics and infrastructure and the look and feel of our town is suffering.
Let's get the rail lines Railbanked Francis. Get on your colleagues in the state legislature so we can get this process moving along FASTER. The big thing that will help keep us on the map and get more families here is going to be connectedness which the rail banking will speed along.
Have heard that the indoor pool may be closed, that would really be a shame if true.
I would like to see Pullman focus on making what we currently have first class. Pullman is always focused on building more and then more or less forgetting about it until it is crap, and then going to the voters to pay more to overhaul it. Focus on taking care of what we have. I've been to other cities in the northwest that have far fewer parks and trails, but what they do have is all green, mowed, painted and prim and the people there are much more proud of what they have. Too much brown and broken in Pullman.
The updates to the playgrounds have been amazing. I hope that the aquatic center remains open, I heard rumors it was going to close. I love taking my children to the warm pool. Reaney pool could use some updates and have some water slides and better lounge areas and changing rooms.
A fully fenced park would be life changing for kids in our community with autism. There are currently no fully fenced parks in the area and Autistic kids who elope need fully fenced in spaces.
I would love to see a splash pad at one of the parks. I know there is one at the pool but I would like one that is available at no cost and located as part of a playground.

I think it might be interested in providing reservation based facility access (indoor/outdoor) for example for pickleball, badminton or even basketball. That would bring more income to the parks and recreation to maybe make some leagues or recreation programs more affordable to more people.
Very Disappointed in the renovation/construction of the Pickleball courts in Pullman. Seemed very 'thrown' together in areas of construction and playability. Pickleball is the fastest growing sport in the world and the current courts are in no way adequate both in quantity and condition. A minimum of 12 court facility should be built to accommodate now and future growth since this is both a family sport and spans generational play. This complex can also be a good source of revenue by holding large tournaments. Monies from the tourney and hotel and restaurant usage will benefit all.
On the one hand, we clearly have a problem with people not picking up after their dogs, but it would be nice if there were more off-leash options for dogs in the area.
Love the affordability of the programs. Would love pickleball court upgrades - lights, cracks, and perhaps even more access to covered/indoor courts in the winter.
There seems to be a lack of interest from outside opinions and groups for the direction of certain activities
very concerned about the indoor pool closing
It would be great to have a free dog park and indoor play area for cold/hot weather.
Need more BBQ facilities. Disappointed that the new Mary's park does not have any grills.
I would really like to see the rail line between Pullman and Albion (and Colfax) become a pedestrian trail. Not only would it provide a beautiful trail for the residents of Pullman, but it would also serve to connect a few of the larger communities on the (in my opinion) fractured Washington Palouse while also encouraging much needed growth/ tourism outside of Pullman and Moscow. I've walked parts of the railway before, and I know it would be well received.
You all are awesome. My kids have relied so much on P&R since preschool.
It is very difficult to narrow down the top two values that you provide. Trails, indoor facilities (since we have 3-6 months of winter like weather), parks, pools, activities-they all make for a robust, welcoming, healthy community.
The bike/walking path along N Grand Ave have very large tranverse cracks, large enough to swallow a stroller wheel. These cracks need to be filled with asphalt, they are too big for coatings or sealants to fix.
Please keep indoor pool open. So critical for seniors health and well being.
We must have the aquatic center - serves all ages and all sorts of people. There must be open and continued discussion about its future. It is a great gift to the community that needs to be supported and open to all.
The lack of fenced dog parks are a growing concern across Pullman. A Google search returns multiple results but most are not appropriate for unleashing our pets. I would suggest research into the issue and starting small at locations that are already treated like dog parks. I could see great value in rededicating the following spaces as fenced dog parks: hillside northeast of the aquatic center or field north of high school tennis courts (this seems to be my neighborhood's unofficial dog park), the lawn northwest of the skate park, somewhere near Sunnyside park (a disc golf re-route may be necessary), Krueger park, the Round Top hiking area, Conservation park, and perhaps at Itani park too. Pet waste is too common on trails and community paths. Dog owners do not and should not be expected to respect leash ordinances in every park, public school land, or pathway area. My family has experienced multiple incidents each year that resulted in minor trauma with our small children and awkward encounters with neighbors. Dogs deserve open spaces to run and the wheat fields are not ideal alternatives. We have beautiful, conveniently located parks and paths that dog owners understandably prefer to enjoy with their puppies unleashed. Other cities I am familiar with would

provide 5 or more fenced dog parks for a community the size of Pullman. They frequently include separated small versus large dog spaces for safety. For our demographics, small lot sizes, surface water pollution challenges, and expected population growth - I see many advantages to fenced dog parks.
Never offer classes or activities interested in such as drawing/painting, ceramics, small engine repair.
I hope the aquatic center will stay open! I swim 4 days a week and my husband and daughter lift weights there about 4 times a week. To help keep the aquatic center open, I think you could charge more for membership. I feel that the people who currently attend regularly would be willing to pay more in order to keep the pool open. Thank you!
It would be nice to have more trails around.
Disc golf
My primary use of the parks is for Disc Golf. I would love to see the Sunnyside park supported and further developed as well as additional disc golf courses added to other parks. Preferably a higher level disc golf course as Sunnyside is an intermediate level.
Would love to see more development from the parks department in relation to disc golf. Sunnyside is a very fun course, but it doesn't seem like the parks department provides much support for the local club. Would also love to see some of the other parks potentially get a small 9 hole course or pitch and put to help introduce people to one of the fastest growing sports. Thank you for considering all of our feedback! Would be happy to help with volunteer hours to make these things happen.
Disc golf is the most important offering from pullman parks, in my opinion
Disc golf is my favorite rec activity and sunnyside is a great place for it! Beautiful atmosphere and great hole design
Specifically disc golf - a real value to the community - and a real bonus to have in our area
I enjoy the disc golf course at Sunnyside. The sport has grown and an additional course would be a benefit.
The disc golf course at Sunnyside Park could use some extra support to finish the remaining tee pads.
It would be great for Parks and Rec to provide more support to the disc golf course at Sunnyside Park and work with the disc golf club to maintain the course
The hours for rean6 in the summer aren't great for folks who work all day m-f and the pullman aquatic center is often more crowded than we'd like year round, especially the warm pool.
I would love to see adult dance classes, like Bollywood
The options available for our youth 10-18 are limited. It would be great if there were more options for outdoor or indoor play and activities for young adults.
Parks and Rec is a gem of a city department. They provide an important service in an exceptional way. The activity guide is a treasure!!!
It would be great to have outdoor pickleball facility with flood lights like in Moscow.
The indoor pools are very, very, very important to me and many others, including children, parents, disabled people, and the elderly, many of whom have specific needs that cannot be satisfied by any other service currently in Pullman.
I like that we have a lot of parks throughout the city. Our rec center offers many activities year-round, including great summer activities that our kids enjoy. When my family and I moved here a few years ago, the parks looked terrible and the playground equipment was dated and unsafe. Since then, we've seen some wonderful revitalization. We'd like to see more useful parks in College Hill, specifically College Hill Core and Apartmentland. There are many families that live on College Hill in Steptoe Village and in the many apartments. But they don't have a park within close walking distance. The closest is McGee but that's quite a ways away. We also urge that the City work with the school district

and other involved parties swiftly to save the Pullman Aquatic Center. It is such a needed resource in the community, and it needs to be preserved and improved, not closed.
Love having indoor and recreation programming options during the cold weather. During the warm weather we love all the parks and trails. Our family particularly loves tennis and pickleball, and would love to see more of these taken care of at a higher quality. If there were indoor courts available, that would be a huge win for the winter time. Thank you for all the programs you have provided and continue to provide!
The family membership is a great value and we love using the aquatic center pool, fitness center, and the rec center. It'd be great if there were expanded/more accessible hours for the rec center on the weekends. It would also be great if staff were more responsive. I've left numerous messages with the aquatic center staff for various reasons and very rarely get a response back which is quite frustrating. I've just about given up trying to reach anyone over there by phone.
Hard to pick just two for question two. Expanded weekend hours for both swimming and the rec center would be great.
Access to bathrooms during rec programs. There have been several seasons where our players and their families had no access to bathroom facilities at Reney, Sunnyside, Jefferson, and Krugel. We have had players leave games and practice because of this. The facilities that are provided are not cleaned enough (both portable toilets and plumbed facilities) and are unsanitary. There should be bathrooms and garbage cans available to the residents who use the skate park. The garbage cans should not be pouring over with beer cans and animal waste.
P&R does an outstanding job of providing the community with a wide variety of activities and venues suitable for all ages and weather. The green spaces and trails for outdoor activities as well as indoor facilities for inclement weather are wonderful. The newsletter explaining the available options is also very much appreciated - we are new to the area and don't know all the options. However, my husband and I are VERY distressed by the current discussion about the PAFC facility. We go there 3 times a week for water aerobics to keep ourselves active and healthy. When our grandsons visit, they use the gym. We see many members of the community using the facility for lap swimming, gym workouts and youth swim lessons. This doesn't even include the swim team use. I understand the school district's financial challenges but SURELY the community can come up with some way to fund this excellent resource. I am concerned that we're not hearing more about what can be done to support this objective.
It's difficult to rate only two offerings. If I could say any two, I would say the community parks and facilities, which includes program offerings taking place at those facilities. I appreciate the investments in improving parks and playgrounds around town. As a family, we are very engaged users of the city parks and rec programs, spaces, and facilities and they are an important part of our family activities.
I have been enjoying the parks since I moved to Pullman ten years ago. I would love to see indoor pickle ball courts for the winter time!
I would suggest more shade. And I'd LOVE having swinging benches for adults. Another suggestion is the outdoor workout equipment at the parks. So we can workout while the kids play.
It would be nice to have pickleball courts with lights. Also cracked pickleball courts need repair.
thanks for careful planning of upkeep and improvement of all parks in town. Especially, thanks for McGee Park sidewalk repaving this summer.
Pullman needs a large, free, and fenced dog park! Many residents agree.
They do a good job. Thanks! Just need more funding.

Extremely sad to hear that the Aquatic Center is the on the list of potential closure. It would be great if information can be shared so people of the community could understand what the needs are to keep the Aquatic Center alive and well!
Need the lighted pickleball courts
I have toddlers so my opinion may be skewed but it would be fantastic if during the 4 to 5 months of winter weather that we had a true indoor play place with different age appropriate sections. Sadly, we've got two huge buildings now available that the city could purchase one of. The old movie theater and PBS being the two buildings and the old movie theater while being older would be an easy way to have separate kid spaces while also still being able to show movies that cost little to nothing in royalties/rights so we could still have a semi-movie theater going on. Please enhance the experience for kids from as young as infant all the way through high school for winter as outside is an option but it isn't enough to keep kids active in winter.
More pickleball time indoors during the winter months please especially on weekends :)
I greatly value the need for parks in close proximity to all neighborhoods in Pullman and I see what the city has done as being successfully. I think creating more stormwater green infrastructure and xeric planting areas might be a great way to build stewardship in our communities as well as environmental education such as the 'save the rain' project in the north east and 'green streets' in Portland. Secondly, updated recreation amenities rather than turf grass (low growing fescue) would provide more opportunities for park usage. Case in point, the skatepark is such a great location for a skatepark but the rough aggregate, poor design, and poor installation make it almost unbearable to use and to watch others use. Creating an established and/or bolstered sensibility of the identity of each park would offer something unique to the master plan. The formalized nature of Lawson gardens versus the passive and relaxing spaces in Sunnyside park are great examples, however if there were some wayfinding strategies to connect them or amenities that celebrate the cultural or ecological history of the park network, this would be phenomenal. Lastly, an open space plan in yearly phases would offer key projects that would be the focus and smaller stepping stones to elude to projects to come. Thank you for this opportunity and I would greatly like to become more involved if possible. Dan Cronan, dan.cronan@wsu.edu School of Design and Construction, WSU
I would love to see more pickleball courts and also some lighting provided. If present courts could have the cracks repaired, that would be amazing. I love the way that the playgrounds are maintained. Our grandchildren have all benefited so much from Miss Jean's Preschool. She does an amazing job!
The parks & trails have been important for our family & accessing the Pullman community. Pullman has some wonderful outdoor spaces & appreciate the effort to maintain & improve. Expanding trails and park spaces with the development to the north would seem to be worthwhile. Having swimming available for lessons when my children were young improved what this town offered. The down side that comes to mind is that the availability of the rec center is not good for those with regular working hours - particularly the winter months.
I would love to see investment in the skate park and to have it expand to the other side of the parking lot. The design of the current park is poor and the transitions dangerous. Also more bike trails and pickleball courts
The preschool and youth soccer programs were super important to us when our kids were young
I regularly attend WEX classes at aquatic center and reaney pool. I am hoping that a solution will be found for keeping them open!
Can lights be added to the pickleball courts?

Would love to see more middle school and year round sports. They currently have no basketball program for 6th graders
I have heard rumor that Pullman Aquatic and Fitness Center will be closed due to insufficient funding. Please don't close it, and let us work together to raise funds for it. Thank you
Spent lots of money to put in new equipment and none of it is ADA accessible.
Please continue to manage the indoor facility at the Pullman aquatic center!
You need more benches at your public parks.
I enjoy the activities that are provided.
I am still pressed about the Lawson Gardens bind you sold the citizenry and then never used that money for that. No apologies. No accountability the what it was actually spent on. Just another government money grab that wasn't used for what it was promised to be used for.
We appreciate all the recent park improvements and the variety of programming that is available through the parks & rec catalog. We try to visit parks in town regularly and I discovered there are some we didn't know about when taking this survey.
2 things that would be very nice for families: a free dog park and an indoor play space for the really hot and cold months.
The fitness center has helped me improve my overall fitness but badly needs maintenance and staffing with education and training in order to help people train effectively. The roof is also leaking and the water is being blown on with fans which is going to do little except create mold. Please don't defund these facilities to "build something new". You are no able to maintain these smaller facilities- where will the finding to maintain larger facilities come from when these are not "new and shiny". Be intentional, smart, and sustainable.
Keep the indoor pool open!
Please build pickleball courts with lights. It would benefit so many people. It is very unfortunate we must drive to Moscow in order to play after dark. Many people who play can't afford to drive over to Moscow.
If I could have a third choice for question 2 it would be recreation programs. While I love the outside pool, I believe parks are essential to community because they can be accessed by those with any income level. Thanks for this survey. I know budget decisions are difficult.
Need more pickleball courts and lighted courts please
We're big fans of Pullman Parks and Rec! The youth sports are great, the parks and trails are abundant, and we love the indoor pool in the winter. The summer concerts and movies in the park were really fun too!
- No great place to grill and have a gathering/limited shelter areas at places like Sunnyside (the permanent grills sometimes seen at parks). - No free dog parks, tons of dogs in this community and nowhere to let them safely and legally run free. Our only dog park is pay to play (unfair for lower income owners) and isn't extensive. The one in Lewiston/Clarkston is amazing and almost worth the trip for a dog to have an interactive experience with their environment while running free... for no cost at all. Also, can we have poop bags in the dispensers at parks? - Limited parking for those using transit systems. Out of towners have no idea where to park, it's a mystery that isn't revealed online/no numbers easily accessible to call for info. Risk of getting ticketed and towed for parking somewhere they shouldn't is high. - Need more events that cater to permanent Pullman residents and not just the college students. Going to Moscow to have any fun or a night life is a drag. - Thanks for taking a survey to search for ways to improve.
Love to see more pickleball courts! Have loved all the park upgrades!

Indoor pickle and tennis combo courts please.
Love love love the pickleball!!!
I think question two in this survey is dependent on seasons. If it's summer time, my family enjoys being outside. In the winter, we enjoy doing indoor activities.
Would love the pickleball courts at sunnyside to get repaired where there are cracks and lights would be amazing!! Or even more pickleball courts. Thank you for providing adult rec leagues and yoga.
We would love to have more pickleball courts with lights, so we can play at night
Nice pickleball courts that don't have cracks would be nice. Also, a timed lighting system on the courts would be very useful.
Please - more pickleball courts! With lights! And please, please, please, repair the courts at Sunnyside. It's like playing across the grand canyon!
I've enjoyed many programs, and also offered badminton myself!
I believe that ALL the things listed are very important for Parks and Rec. If the public can somehow help more so that we can ensure that all those items that are listed are continued, it would be much appreciated to be communicated.
Would love some lights on pickleball courts!
I am very concerned about the possible loss of the Aquatic Center. This has been a safe place for my children to go and get exercise, one of the few options for birthday parties in the town, and one of the few options I have for exercise with my physical limitations.
More pickleball courts, and fix the cracks in existing courts. Keep the aquatic center! But love the various programs, especially for kids. They are fun and affordable. Just... if you get coaches who are WSU students... make sure they actually like children. :)
The amazing upgrades done on the parks have been a game changer, an addition of lights would be great for those winter days and its only 430. But kids need to get energy out. An INDOOR play area would be amazing. I would even pay a membership fee for that. The cold and hot days.. Mcdonald's can get old pretty fast. and sometimes I don't want to drive to the eastside mall in Moscow. We have some spaces coming up (sadly) that could be converted.
You need to have a spot facing north for an archery range, all we need is 100 yards, I desperately want archery range in Pullman
I feel pullman needs a free splash pad for summer time, some family's in the community can't afford to go to the pool or it's overcrowded with not much for toddlers to do. I feel a free splash pad would benefit the community and the children in it very much!!
We need to improve our city facilities. We need turf athletic fields. Our youth sports are a gateway to our community. It is often the first thing people see when they come to Pullman. We must prioritize our community fields and recreational facilities
Thank you for all the work you do for our community!
We would love another park on sunnyside hill! The current ones are over a mile away.
City playfields should have an absolute no dogs allowed policy. I love dogs, it is a travesty when a dog tears up the infield after a rain or leaves a duke for a kid to fall in in the outfield. Please consider fixing this. Also, make the infields at city playfields turf.
i could like to see a park established at the end of Panorama, it's too far away from Sunnyside park
Would love to see a splash pad or other outdoor water activities for little kids that you don't need to pay to enter.
We need pickleball courts without cracks and lights.
I didn't pick preschool because I only could pick two but it would be third for me. Ms. Jean in particular is amazing.

More programs
I hope that Parks & Rec would offer workshops for sustainable gardening practices including water conservation. Also, one thing that could be added to our parks would be exercise equipment. I've lived in other cities where they provide these equipments. It not only gets more people outside, it adds to their physical & mental health, and it's an activity where we meet others and socialize with them. It's a win-win!
We'd really love to have an indoor swimming pool on the sunnyside hill!
We are very impressed with the parks and landscaping. The trails are amazing and could use better signage (for example, when to get off for certain upcoming turns, bike buttons for crossings, clear bike lanes painted in areas without trails along the roads). We've always appreciated how clean everything is, but recommend more trash containers near playgrounds (they are often near picnic tables, but kids' trash or food or drink bottles are often near the playgrounds). We are so grateful for our Parks and Rec! The facility itself is very nice, but the Rec Center was not very welcoming to our guests visiting; one lady was very nitpicky about rules our guests were not aware of yet, such as no running on the walking track, and not considerate (did not have a good tone: could use some welcoming skills). It would be nice to have the workout room from the Aquatic Center over at the Rec Center: an indoor gym and running track would help our community during the cold months.
Wish the free swim hours were longer at both the indoor and outdoor pools.
Pullman has had the best recreation catalog offerings of this area and we utilized the parks, trails, activities, and swimming pools for a lot of years in Pullman and we are so thankful that we were able to learn skills and have fun and kept very very busy during the summers with all the lessons and camps offered! There are no more "young" ones in this family, but I just read the Fall catalog and it's looking good! Only one observation, seemed kind of like art club and music classes didn't appear in this one, but may be offered again when someone is interested in teaching it I'm sure!
The cost and management of programs has decreased in value over the past 5+ years. Parks and facilities, for the most part, are well kept, easily accessible and enjoyable.
I am a big supporter of two themes: 1. Using, improving, and sustainably managing our natural resources - the rivers, the urban forests and the wildlife. 2. Improving our network of mixed use trails and building on the natural trails.
Maybe not related, but my children and I are a bit bummed about losing so many swings at so many parks during the playground remodels. For example, at Reaney Park there used to be four baby swings all in a row. I would frequently meet up with friends and we would all swing our babies at the same time while we chatted. Now we have to take turns. Also, I have four children (plus their friends) and it is pretty hard when many of them want to swing at the same time. Reaney Park used to be so great with all of those swings. Don't get me wrong, I love and appreciate all of the incredible work that has been done to our playgrounds. It is just a shame that so many swings have been lost. Perhaps that could be a note for the future if there is every an opportunity to add back in those swings.
My children have participated in Parks and Rec sports/dance for over 8 years, it's one of my favorite parts of Pullman. I love that the catalog has something for everyone. I recommend Parks and Rec activities to every new resident I meet. The only thing that is a negative for my family is our outdoor pool. This is the first year we did attend a single day swimming at Reaney. My children prefer the Moscow pool. Besides having more to offer for fun, the lifeguards are much nicer to both parents and staff. Many of my parent friends do not like the interactions they have with the staff at Reaney pool.
Overall you do a great job. Concerns knowing that sidewalks are under P and R... especially on Davis Way. The amount of rocks from homes that are higher than sidewalks, block before Cory Lane is unacceptable and dangerous for walkers and bikers. This added to winter rocks during snow time makes Pullman vulnerable to law suits. Please remove rocks more frequently or ticket homes that are

causing the problem. Finally: access to the Sunnyside playground from the tennis court (Wawawai Rd) is not easy. Suggest looking into this perhaps.
I love the trail system in Pullman and Moscow. Please let us know about any updates you have to make this wonderful system even better for families to move about the community by walking and biking to enjoy the downtown space and excellent parks!
Pullman families need affordable elementary age children's programming during summer (especially August after cougar camp ends) and during academic calendar breaks. With YMCA leaving Pullman, after school care is a huge question mark for Pullman families.
More disc golf courses
Plants are overgrown including dangerous noxious weeds such as poison hemlock. There is little to no maintenance except on lawn/turf care. Upper management and general workers seem to lack basic horticultural knowledge. Important areas where many people visit are not properly taken care of and are often overgrown and not properly maintained. This especially includes downtown Pullman, fields of noxious weeds, and sidewalks. Upper management should be replaced or sufficient training should be given to current employees to better improve city conditions. This includes general plant knowledge, pruning techniques, and tree care. A general SOP manual should be created for new employees and trainings.
Thank you for updating the Pullman playground parks recently! Such a huge and positive difference for Pullman families. Thank you. Two more things we desperately need: 1. Elementary age programming during school breaks and summer months (especially August every year has the most limited options). Working parents fight for space in these limited programs that fill up quickly. 2. Splash pad for the community. Free to access at a city park please! So many people cannot go to Reaney due to costs, hours of operation, or due to only have a few minutes of free time with their children. A splash pad at a local park would be a benefit to these families. It would also be a way that Pullman could keep up with the many other similar size cities who already have one.
More offerings during school breaks and during the gap between the end of cougar kids camp and the start of school.
It is great that we got the funding for new play equipment and now the focus should be on maintaining these structures, something that has not been kept up in the past. Also, new trails for biking/running would be nice.
The parks and rec staff do an outstanding job. From facilities management to program management! It would be great if more playfields and basketball courts could be created in Pullman
Would like more trails and bike paths
Emerald Pointe Park has not been developed. There was a city bond passed for that purpose. Adding a city garbage can for dog walkers would be a good start
Pullman parks, recreation spaces, and natural areas are crucial spaces for the community. They offer free, or at least fairly affordable, opportunities for people to socialize, play, and get access to nature. Anything that Pullman Parks & Recreation can do to foster the growth of endemic species & community building, and facilitate play for the community, has my support.
Very disappointed that the city took the Pullman Parks and Recreation bond money from a few years ago that was for upgrades to Lawson Gardens and used it for other purposes. I don't mind paying a little extra to help out the Pullman Parks and Recreation but also don't appreciate being told that 'oops' we are going to use the money for something else. It makes me wary of future bond requests from the city including ones for Pullman Parks and Recreation.
Please install more splash pads that are not at Reaney park. Most cities have free splash pads that are good attractions for families. Please build a sports complex for youth sports. 2 baseball fields, 2

softball fields, a soccer field, football field, with an indoor training complex for the winter months. Sports complexes are positive continual revenue streams for cities and towns.
Would like to see a dedicated kids bike park on a flat surface, maybe with painted trails for them to follow. This way the kids can practice riding without worrying about cross traffic. Also...maybe an electronic reservation system for the pickleball courts. Maybe pay \$2.00 or something to reserve them this way, but reservations may be forfeited if people are 10 minutes late. Something like that. Also...the ladies at the front desk are amazing and I always appreciate how helpful they are.
Please support Pullman Aquatic Center. Thank you
Would love to see a community collaboration to bring a large scale outdoor turf sports facility to the community. The emphasis would be towards baseball and softball and providing those sports greater opportunity to play games in during the cold wet springs, but it would also be able to serve our soccer, field hockey and flag football communities as well. This would also serve as a great way to create tourism in Pullman during the summer with events like the Palouse Summer Series
I wish Reaney Park Pool was open longer in Aug and Sept
Access to playfields seems to be dominated by who you know vs equal access for all organizations.
Would love to see Terre View Park upgraded! We love using all the new playgrounds that have come up over the years.
Winter is 4ish months long and there really isn't much indoor for young kids around here. If the city could get a grant and implement a big play place similar to ones visited by characters like Blippi and Meekah from YouTube... That would be amazing as a parent even if we had to pay a monthly subscription or pay each visit.
I would love to see the parks we have made more issuable and have more features. The playfields have so much potential, but the old locker room facility and lack of parking make it difficult. The bathrooms aren't near where people actual need them. Could the land on the other side of the railroad tracks be repurposed for more resources at the playfields?
All parks should have ADA access to the playground equipment. You went through and updated the equipment at Krugel but there's NO way for ADA children to access it because of the barriers around the edge and the woodchips you used on the ground. ADA states that when equipment is upgraded the play area must comply with ADA standards. There is no way for a wheelchair user to access the baseball/ soccer area. That's a violation also. Justin having Mary's Park at the edge of town is not enough. ALL parks must be ADA compliant. Budget for the improvements and stop violating the law
Please continue to support current recreation programs and facilities, including sports for youth/adults, pools, parks and trails.
We enjoyed parks a lot when my kids were toddlers/elementary, but now that they are middle school/HS, we don't use them very much. We would enjoy more trails and spaces that older kids and adults can explore.
We have participated heavily in Pullman parks and recreation activities and facilities since moving to town nine years ago. We have always appreciated how convenient and financially accessible the programs and facilities are, and also appreciate the open communication channels that we have with parks and recreation staff. I have always felt that a key component that has been missing in our community is a FREE dog park. Considering that this town has a leash law, it is bewildering to me that the city does not offer an off-leash place to socialize dogs and let them play! Also a great place to meet neighbors and build community.
Swimming facilities need to be updated for year round Handicapped accessibility like shower seat in women's locker room, entry into pool, parking lot to facility, and logistics are not user friendly especially during snow and ice for Handicapped seniors. Reroute bus turnaround somewhere else,

redo parking lot with Handicapped parking in front with enough spaces, or rebuild the whole facility somewhere else. Hot pool too small, becomes dirty with hair, goop, and slime from Seniors scaly dry skin and babies & children. Get a multiparty strategic community partners especially PRH using its Community building funds to maintain its 501c(3) status and build an updated modern facility like a YMCA with PT for Seniors and youth development camps and classes.
It is good and well taken care of. With how long our winters are I would like to see some more indoor options like an indoor field that can be used for soccer or football.
More pedestrian/ bicycle trails please. One to Colfax on the old rail line would be amazing
Do not add any more parks, until you can afford a staff to care for them
We really appreciate Pullman's Parks and Rec staff and offerings. Our community is growing and the need for increased facilities is growing with that. I believe an additional ballpark with lights would GREATLY expand our ability to continue to serve especially the youth in our area. We could get more months of use out of our facilities if we had more lights at night. Sunnyside Park is a great candidate for this. Both the baseball field and pickleball could benefit from lights. Thank you for your consideration.
Need cracks at the pickleball courts fixed. Love the ladder leagues.
Pullman needs more youth sports spaces, that can be used in more weather. Specifically, we need to invest in a turf field that can be used. The current city playfields are used more than they can withstand and our youth need access to outdoor activities more than ever.
Please don't cut programs.
More opportunities for soccer, basketball, other adult sports year-round, maybe in collaboration with the university. Potentially multiple divisions or multiple nights of the week.
We also appreciate the youth sports and rec programs.
I would love to see PPR expand its investment in indoor and outdoor facilities, including baseball-softball fields, improved outdoor pool facility (and hours), and additional rec/basketball facilities. Maybe PPR could acquire MPBS building for rec expansion.
It would be great to have a dog park that is free to the public like so many cities have. The park at WCHS that charges to use is not helpful to visitors to the area. I use public dog parks often in my travels and believe it is a failing of Pullman that our visitors don't have that as an option
City playfield field conditions could be improved - possibly turfed.
I would love to see more trails & biking infrastructure.
Build Emerald Point Park
As a 30 year resident of Pullman, having reared four children here, our Parks and Rec program is fantastic! I appreciate the wide range of activities available for all age groups!
I really wish we could invest in some way to utilize our natural river as a viable swimming option. It's the one thing that Pullman lacks as natural bodies of water are at least 45 min away.
Prioritize a covered, wind sheltered playground area for use in the wintertime and shoulder seasons. There are currently no good options for going to a playground when there is snow on the ground. Having a playground downtown (maybe in high street plaza) would be an amazing draw for our businesses. We will often go to Moscow to shop because our kids can "hit the playground" while we're there. Even though its not much. Focus on quality over quantity moving forward for parks. The new improvements to our parks have been loved by our children. Focus on trail connectivity, our trails are amazing, but do not have great crossings at busy intersections. Good examples are where the trail crosses stadium way by Rosauers. Currently we expect people on bikes to dismount, walk to the light, cross, then ride back to the trail. Out there idea, but consider cultivating public private partnerships to allow temporary or permanent vendors at our parks. Having a food truck, taproom,

light restaurant, coffee shop, etc. where parents can meet with other parents or friends while letting there kids play on a play structure in close proximity is a great way to foster the idea "third places" within our community.
I appreciate the improvements in the play structures at the parks (even though my kids are too old for them now). The new ones are much better for families.
I would like to see better screening of coaching staff and access to bathrooms at sports practices.
More pocket parks on sunnyside hill.
They do so much with such a small staff it is amazing! We really need a sports complex though. The number of teams and programs competing for space would show a strong need for this.
I would love to use the Reaney Park pool but its hours are terrible for people with day jobs. Please consider extending its hours on a daily basis and taking advantage of our gratitude weather by extending the season. I would love to see it open for lap swimming in evenings from May through September. Love our trail system! It's very cool you can take a sourdough bread-baking class through our Parks and Rec occasionally.
1. Play spaces need more challenging and exhilarating toys. My kids get bored with most parks here around age 8. Bonus points if equipment is larger so parents can play too. 2. Trails and gardens everywhere. Bring back the Palouse prairie with native plants, beautiful trails, and sitting places/nooks. Labyrinths of beauty. 3. Utilize nature play spaces near all gathering places. Sidewalk games. Parents can congregate easier if kids can play. 4. In ground slides. Big wide slides. We live in a town of hills. How fun would it be to slide down often. Adult sizes in these. 5. Not sure if this is you, but move farmers markets and art walks etc to grassy areas. Sure it benefits down town and might be fine in cool weather, but I usually hate going because it's too hot. My passion is parks. Literally designing parks and green spaces is my dream job. I would love to chat more if needed. Katy.clarke87@gmail.com, 702-235-2047
We love having safe ways to bike around town, more of those would be really helpful, especially for shopping and things like that!
I am very satisfied with Parks and Rec and consider it one of Pullmans greatest assets. That being said, I wish it had even more funding. The Aquatic Center Gym needs some new equipment and I dream of a time where we have even more trails and bike paths. We cannot have enough trails. And, I'd like to see some sort of native plant restoration project take place on the open green spaces.
It would be great if the pool could stay open up until school starts or at least a little closer.
We use the bike trails around Pullman almost daily.
Needs an indoor or outdoor space for competitive archers to practice

Full Interactive Social Map Results

Social Map Results: 'Ideas and Suggestions' (149 responses)

Can we add a light up warning sign like what was just put in on Main and Grand to remind drivers to yield to people and students on the crosswalk?
Need to add a jersey barrier to protect the bike lane. Cars often ignore paint and block the bike lane.
rainbow cross walk here!
Love the fitness center, but please fix the roof that is leaking!
permanent goats!!
prime location for restoring Palouse prairie here
Is this space being used optimally? Rumor was that it was for storage for the city? This is prime location for community-building. Could it be made into community center, art, affordable housing?
Resurface pickleball courts to remove large cracks
Purchase land to maintain access to the trail around the HS from the back.
Make this an official trail so you can walk between the sections of the neighborhood.
A dog park would be great on this side of town.
Make this an official trail.
work with Whitman County Parks to fill separation cracks in the Chipman Trail
Roundtop Park should be a dedicated park, not just a part of the golf course.
The cracks (pavement separation) along this trail need filling
Adopt this shoreline park as a city park. It is half on old railroad right of way and half on the Esser-Sandberg property (but occupied by Gehring&Farwood)
A light under the bridge and at some of the darker places might make the trail feel safer at night
A crosswalk is necessary
Colfax, Albion, Pullman Rails to Trails please!
At some point there was a trail from Greyhound Way to Brayton Rd - it would be nice if it was revived and made official
Would love a better trail here along the water way. Kids love the new equipment and it would be nice to have a trail for the parents to walk on during kid play time
The river really really needs to be cleaned of reed cannery grass and other weedy species. The river could be such an amazing asset for the city
Here - definitely need bike friendly lanes
Proximity to running water and Grand make this dangerous for kids but excellent for native plant natural area. Across the water is the depot, which is working on restoring native Palouse prairie
The town should partner with local land trusts and purchase a large area adjacent to the city to be used for conservation and recreation (trails, benches, etc.)
Please pave this road for cars.
This is overdue and needs to be made into a park with activities.
I agree with everyone else. South Grand Ave needs to be more bicycle friendly. The Current sidewalk is too narrow to ride and the road is much too busy to safely ride on for most folks
I agree with the other comment, this area would make for a really nice park

Work with the County and State to create the Colfax-Albion-Pullman corridor trail. This rail-trail would be a great way to connect our Whitman county communities while providing a beautiful alternative to the Chipman trail for Pullman residents.
Need to widen this path. Currently snow and ice pile up and turn into a rutted, uneven, slick, danger during the winter. A wider path here would allow standard snow clearing equipment to clear this at the same time as the mixed-use trails.
Put HAWK crossing in and connect to old train bridge, which could be converted to a trail
Convert the unused train bridge to a trail with a mid-block crossing on Kamiaken
Would love the addition of pay to play disc golf course!
Would love to see a small pitch and put or nine hole disc golf course here
I've always thought this drainage would make a good spot for a small park
Skate park
Basketball courts
Pickleball courts
Sand volleyball court(s)
Saw an accident here on a left turn onto Klemgard hit by a car on Bishop. A roundabout here would be greatly welcomed and make this intersection significantly safer for people on foot and in cars.
Please add a leading pedestrian interval so students can cross safely!
3 west-bound lanes this intersection seems unnecessary. Make a dedicated left-turn lane and a straight/right-turn lane. This will discourage speeding to beat the light into a residential area. Use the free middle lane as a pedestrian refuge trail crossing
Concrete speed table similar to the new crossing for Pine Street plaza downtown would greatly increase safety at this crossing.
This part of Johnson trail has gravel between the paved trail and the asphalt road. People don't realize this is a trail and sometimes park their car on the trail blocking it. Consider bollards to prevent cars from parking or driving on the trail.
Could use a jersey barrier to make a pedestrian and bicycle refuge. It's quite uncomfortable to wait here with 55 mph traffic just a few feet away unprotected. Signal button is hard to reach, could be on the pedestrian bridge.
Need a marked crossing for people on Brandi Way to get access to the Terra View Trail. Speed reduces to 25mph just east of here. Consider making Terra View 25mph throughout.
Add a crosswalk here to give better access to new business park and reduce speed on the remainder Terra View Dr to 25mph or lower.
more connectors to this small park
trail and bench at water towers
Hard to tell this is part of a trail. Paint it green or reddish-brown to make it easy for people to tell this is a mixed-use path.
The skatepark needs a massive update. It's such a great location and space but the obstacles and rough aggregate make it difficult to enjoy.
My kids enjoy this park but it gets hot! Would be an amazing place to add a splash pad for water play.
My kids miss the horse swings.
I love this trail and would definitely use it more if there was more lighting for safety.
Could we partner with HS to get pickleball option on this side of town? Do they really use every court?
+1 to resurface courts and add lights
would be great to get bathrooms near the pickleball courts

need to resurface pickleball courts, so many cracks. Also, would be great to add lights.
look for grands to revitalize the downtown theater
encourage businesses instead of churches to move into empty buildings
Tear down derelict buildings. Make a playground with seating for families downtown
A shelter with a top would be super nice. there is a frame for something but nothing added. The shelter like at Mary's park would be perfect
Easier access to MH park. Using a wagon/stroller is hard when there are no ramps/paths this direction
there is no sidewalk extension into the parking lot or ADA ramp to get off the sidewalk
there is a crosswalk here with NO ADA ramp on the highschool side
The Reaney park pool could use updating and maybe more things for toddlers to do
This park could be good for a free splash pad
Perfect for a free splash pad
There's a bus stop on a narrow sidewalk. Please increase sidewalk width to a multi-use path and add a shelter off path to reduce path congestion.
Add a park
Pond stocked with bass please.
Park and connecting the trail from sw old wawawai road
Nice land for small public park for community use. Would be ideal to have it integrated into the natural space with nature preservation, like Itani. Nice for walking, being in nature, since this land continues to be developed.
A new park is needed for this expanding community.
Nice location for a Dog Park and natural setting for native plants, or possible arboretum (sic?)
Improved safety for crossing for school age kids please! Reduce speed to 20 mph or a roundabout. Curb extensions for shorter crossings.
Please make the Davis way trail continuous and block cars from entering and exiting Davis Way here. It creates an unnecessary conflict point with trail users.
Can we get a bollard here to prevent people from driving into the mixed use path? I've seen people accidentally drive on it or people driving up it and parking on it during disk golf events.
Beautiful land just waiting for a public park! This neighborhood is over a mile to Sunnyside park and could use a park close by. The hills represent the Palouse and can be preserved with some light trails. This is great land to serve a growing area.
New okay structure is great! Limited parking not so much. Lots of green space that could be turned into baseball or soccer fields.
Work with the school district to utilize more school fields for soccer and flag football programs. Preserving the integrity of the baseball fields. Alternatively, build a soccer complex to avoid sports overlap and preserve field integrity.
Upgrade the Sunnyside baseball field to accommodate PPR and PYBA programs.
Please improve trail crossing.
provide access pedestrian access from Prairie Ct to Grand Ave for area residents
purchase this property to ensure public access. Used by Middle School students as well as adults accessing transit, recreation and shopping
adopt this wonderful shoreline park as a city pocket park
Tear down this building for more green space
New city park or natural area?

I agree with the dog suggestion. Many people bring they pets here to defecate all over and leave a mess. This field is in terrible shape too. Should be converted to turf and dogs should not be allowed.
Agree with the curb extension and paint suggestions here. This is a high traffic area and pedestrian and cyclist cross traffic needs to have more markings and a continuous crosswalk added
The intersection at Terra View and Grande is unsafe as is for pedestrians and cyclists. One option would be to connect this point up to Terra View.
This long stretch could support frisbee golf. Sunnyside park always has people playing and Sunnyside can get pretty busy at times. Pullman could probably support a second playing field here.
This hillside is difficult to do anything with but a community garden could work and generate a little revenue towards maintenance.
Awkward transition from mixed used trail to sidewalk from here to N Grand. Please widen the sidewalk into a mixed used trail to keep the trial's continuity with Grand Ave Greenway.
Can we get curb extensions put in to encourage traffic to slow down to the posted speed limit?
Could use a fresh coat of paint to show this is a designated trail.
Speed limit increases to 35 MPH but no mixed use path for bikes. Consider widening the sidewalks to mixed use or reduce to 25 MPH throughout S Grand.
Traffic light from W Main St to Grand doesn't detect bikes or motorcycles. Other intersections in town do. Please update sensor to detect smaller vehicles.
Davis way trail is right up against the highway. Could we get planter boxes with native plants to provide a buffer between people and traffic? It feels like a kid on a bike is one fall away from landing in front of a truck.
Could we consider some curb extensions to minimize the length of the trail crossing? Something similar to what we have on Harvest Dr.
This section of Bishop could use wider sidewalks/bike path
I'd like to see a multiuse path along south Grand to improve pedestrian/bike safety. The sidewalk is not wide enough to accommodate both pedestrian and bike use and the traffic is too fast/heavy for me to be comfortable riding in the street
Work with WSU to make the playfields accessible to Pullman residents.
This would be a great location for an arboretum, kid play structure, or event center
Add an indoor sports facility for youth sports. 2-3 story complex.
Splash pad area in the summer.
Need a large platform so kids can play.
Turn river into a focal point instead of a hazard to cross. Add more locations to walk along the river.
Please expand the evening hours at Reaney park pool. Also, please expand the length of the outdoor pool season to the week before PSD schools open. The current schedule is silly.
Make this park a dog park
Would love to see this section of Grand improved for bicycles & pedestrians.
Pickle ball courts are amazing and heavily used! Please add lights to extend court hours.
Please consider investing in an expanded pool area and extended hours for the Reaney Park Pool. Compare with Moscow - would love to have a similar facility and expanded hours so folks can enjoy into the evening. Please be open July 4 and Lentilfest!
I would recommend utilizing the area across the railroad tracks for a dog park. People seem to think the ballfields can be used as off leash play areas for their dogs. In addition to enforcing no dogs on fields, offer a dog friendly option across the way.
The sidewalk along Davis is extremely narrow after the mixed used path and is very dangerous. I would love if it could be expanded.

I second the other suggestion about improving pedestrian/biking infrastructure along this section of Terre View.
Would love to see the 'trail' widened at this section. Currently there isn't enough room to comfortably fit 2 wide which can lead to collisions.
I would love to see something done to improve safety at this crossing. Something as simple as flexible bollards and bright paint would bring attention to the crossing.
Need dedicated bike lane and ramp with markings or expand the multi-use path down to the intersection, dangerous for bicyclists
Cap to allow foot traffic
Pave
Wide, multi-use trails for bicyclists and pedestrians are needed to connect the greenway trail and Terra View trail. Existing paths and markings are inadequate and dangerous for both pedestrians and bicyclists.
This should be a continuous crosswalk or sidewalk, dutch style to make obvious the cross traffic.
Find a way to make the water a focal point of downtown
(In the never in a million years category) collaborate with Moscow to clean and raise paradise creek into a floatable river experience from Moscow to Pullman. Mimosa as a hub/restaurant and shuttle spot.
Acquire and develop industrial spaces into green spaces
It's a pipe dream but I would seriously like the city to invest in creating viable swimming options with our natural water source. If not that, at a minimum, investing in utilizing the river as a prominent feature of our city/ boardwalk area
Rail Bikes as a recreation offering along unused railways
Build the stairs down to the river that were cut from the downtown Pullman project
Consider a weir dam to create a canal like feel to our river
Landscape River Park all the way down to the water
Work with the city to encourage public private partnerships for developing row housing along our incredible trail systems
Add connection from the trail to Reaney park here
Winter Rope Tow, Snowmaking, Learn to ski, Inner Tubing area
Consider a linear park where we maintain the riverbanks instead of allowing it to grow wild. The Caldwell, ID greenbelt provides a nice example of what could be
This is a prime location for a downtown playground
Improve this trail crossing to allow the trail to be continuous here.
This seems like an area (in combination with the bridge) that could be converted into a neat outdoor venue for music. Have some stages or something for live music on the side of the river by the depot, and the park and bridge as gathering areas.
I know not your property, but slide.
This skate park is terrible. Expand and improve
Giant dirt BMX track and skate park
Nature play structure
Kids already use this as a climbing wall. Encourage that. Maybe add some fun boulder stepping stones for proprioception building. Adding painted sidewalk games to do while parents are in the square listening to music etc.
Love the accessibility. But also needs more challenge

The new climby structure is fun. I approve. Having another challenging obstacle course type structure would be cool. Why did we take away the big swings? Kids hate the new ones.
Spider web is cool. Everything else is kind of boring. New merry go round is fun because you can climb, but slow. Add more challenge to this park.
Add more native plants nooks.
The other play structure is boring. Great for littles, it would be nice to as more for a challenge. Nature play scape obstacle courses, climbing structure, rock walls, zip lines.
I would like for there to be a safe way to bike along grand

Social Map Results: 'Make a Comment' (23 responses)

Can the Farr cemetery be made transparent and marketed better? Is it city property? Private property?
Easier access needed from the parking lot. It's hard to get to the playground.
Is this a public trail (easement)? Would be wonderful if so.
I agree with the other comment that the arboretum could use some renewed focus. Is there a city-lead group that can work with WSU?
There is no road yet please connect the roads.
Please connect NW Golden Hills Dr. to Wawawai Road.
I know it's outside your jurisdiction, but I would like it you would encourage WSU put more effort into the arboretum. It's pretty underwhelming and could be a destination for more people cyclists and pedestrians since it's right by the Arbor Link Trail
This whole NE section of this intersection needs to be reworked to better connect the bike path that ends at Hopkins ct with the trail that crosses under the bridge.
This trail crossing is too dangerous and is essentially non-existent. Something needs to be done
Would love to see more development and help from parks and rec with improving the disc golf course
We've noticed a lot of bees/wasps here recently.
Rail banking!!!
this break in the trail to cross the road is unsafe and awkward.
connect Jefferson, Kamiak and the high school together with protected trails.
with all the improvements on this road no one thought to add a protected pedestrian lane? as a wide trail for bikes and people walking. this road is always full of kids on broken sidewalks. a trail path between Jefferson and the highschool would be safer
Upgraded playground is great!
I like this path and the pedestrian/bike light. to cross Bishop but it could use some signage to help with the transition to/from the Chipman trail.
The path between Farr cemetery and the street below is steep, slippery and muddy after rain. Adding some gravel and anti erosion measures would be good.
This is not a public trail
This is not a park and is overdue in construction.
In ground slides and Palouse prairie would be fun here
Not sure if this is public or private but this would be a good spot for in ground slides and Palouse prairie
Use this trail daily. There is about a three foot space that has some erosion and it's super difficult to walk on if wet, snowy, icy. The steep hill part on center is also incredibly difficult if wet or snowy but doable

Social Map Results: 'Something I Like' (29 responses)

I love Triangle Alley! More signage please!
This is a great walk avoiding Grand Ave
This trail is peaceful and quiet
I love it here
Someone gravels this trail for the local kids as they walk to school -- thanks!!
Love this place. Please give it more love. Could use help restoring native Palouse prairie
Please connect this to Wawawai Road.
The Kelly Ward Path
Love the trail around town
Appreciate the disc golf course
Love the pool. Really need it for my health.
Need bathrooms near the pickleball courts.
The rubber play surface is amazing. Maybe a green color so it doesn't get as hot.
We love this park! its not advertised very much but the tot sized play equipment is perfect!
i love the indoor option just wish there was more open swim for kiddos after school
Love the new mixed used path expansion! Wish it would extend all the way to the school. Fingers crossed that's part of the big picture plan!
Love the walking path and preservation of surrounding nature. Would be great to have more of these throughout Pullman. Great space within neighborhood setting.
Attended a wedding here. Very beautiful!
I love Grand Ave Greenway! More trails that aren't right next to roads would be great!
I love that my family can safely ride to the Moscow Farmers Market on this trail on Saturdays on this trail!
Love this mixed use path. It makes for a pleasant walk/ride to and from Sunnyside. A play structure at the park would be welcome addition.
I love the mini roundabouts. It makes riding to the park and trails much safer for me and my young children.
I love this path
I use this path to walk the dogs a couple times a week. Nice multiuse path!
Beautiful location in Pullman. I would like to see the water filled.
Please continue to support
The rubberized play surface is amazing, consider placing it in other parks as well
Love the big slide. Love that it is made harder to climb so the littles can't get up on their own, but bugs can have fun
The new slide feature is fun. Tall. Challenging elements. Fast. Good choice.

Appendix C – Local Trends in Programming Participation

Current Offerings

The tables below outline all of Pullman's current individual programmatic offerings, organized by their core program area, and including enrollment data from FY22 to FY24, growth statistics during that time frame, their current lifecycle stage, and their current classification. Blank spaces indicate a lack of data for that fiscal year, typically indicating that the program was not offered during that fiscal year.

Appendix D – Site and Facility Assessment Results

Below are the full assessments and subsequent scores for each assessed Pullman site and facility.

Individual Assessments: Parks

The following assessments focus on the system's more typical parks, including pocket parks, neighborhood parks, community parks, and special use parks.

Conservation Park

Location: 799 NW Darrow St

Size: 15.85 acres

Design and Usage

<i>Classification</i>	<i>Primary Seasonal Use</i>	<i>Usage Levels (relative to other parks in the system)</i>
☒ Community Park	☒ Spring	☒ Light
☒ Other: Mostly trail	☒ Summer	
	☒ Fall	

First Impressions

Type	Cumulative Condition										Score	Comment/Notes	
	Poor		Fair		Good		Excellent						
Visual aesthetics	0	1	2	3	4	5	6	7	8	9	10	5	
Branding	0	1	2	3	4	5	6	7	8	9	10	7	
Main Entrance	0	1	2	3	4	5	6	7	8	9	10	4	Very difficult to find, located at the end of a neighborhood street
Safety	0	1	2	3	4	5	6	7	8	9	10	6	
Total Score												22/40	

Access and Visibility

<i>Site Access</i>	<i>Access Conditions</i>	<i>Visibility (signage, lines of sight)</i>	<i>ADA</i>
☒ Secondary Arterial	☒ Well maintained / Reliable Access	☒ Slight visibility	☒ Slightly accessible

Site Structures/Amenities

<i>Type</i>	<i>Quantity</i>	<i>Cumulative Condition</i>				<i>Score</i>	<i>Comment/Notes</i>
		Poor	Fair	Good	Excellent		

Park Shelters	1	0 1 2 3 4 5 6 7 8 9 10	2	Not much of a shelter, just a roof with a sign
Benches (General Seating)	4	0 1 2 3 4 5 6 7 8 9 10	8	
Picnic Tables	4	0 1 2 3 4 5 6 7 8 9 10	3	
Signage	1	0 1 2 3 4 5 6 7 8 9 10	5	One sign located at the entrance
Total Score			18/40	

General Landscape/Hardscape

Type	Cumulative Condition				Score	Comment/Notes
	Poor	Fair	Good	Excellent		
Landscape	0 1 2 3 4 5 6 7 8 9 10				9	
Parking	0 1 2 3 4 5 6 7 8 9 10				4	Only nearby street parking available
Trees	0 1 2 3 4 5 6 7 8 9 10				9	
Walkways	0 1 2 3 4 5 6 7 8 9 10				7	
Total Score					29/40	

Overall Condition

☐ Poor	☐ Fair	☒ Good	☐ Excellent
--------------------------------------	--------------------------------------	---	---

Park Summary

Strengths:

- Long walking trail with a nice view
- Lots of open space

Challenges:

- Lack of parking (only street parking available)
- Could use more signage; only one small sign that's not very visible from the street

Emerald Point Park

Note: This park has been approved for development but has not been built yet.

Location: 190 SE Crestview St

Size: 2.9 acres

Design and Usage

<i>Classification</i>	<i>Primary Seasonal Use</i>	<i>Usage Levels (relative to other parks in the system)</i>
☒ Neighborhood Park	☒ Spring	☒ Light
	☒ Summer	
	☒ Fall	

First Impressions: To be determined.

Access and Visibility: To be determined.

Site Structures/Amenities: To be determined.

General Landscape/Hardscape: To be determined.

Overall Condition: To be determined.

Park Summary: To be determined.

Harrison Tot Lot**Location:** 337 NW Harrison St**Size:** .23 acres**Design and Usage**

<i>Classification</i>	<i>Primary Seasonal Use</i>	<i>Usage Levels (relative to other parks in the system)</i>
☒ Neighborhood Park	☒ Spring	☒ Moderate
	☒ Summer	
	☒ Fall	

First Impressions

Type	Cumulative Condition												Score	Comment/Notes
	Poor		Fair		Good		Excellent							
Visual aesthetics	0	1	2	3	4	5	6	7	8	9	10	8		
Branding	0	1	2	3	4	5	6	7	8	9	10	0	No signage	
Main Entrance	0	1	2	3	4	5	6	7	8	9	10	3		
Safety	0	1	2	3	4	5	6	7	8	9	10	6	Neighborhood road nearby but no fence to separate it from the park	
Total Score													17/40	

Access and Visibility

<i>Site Access</i>	<i>Access Conditions</i>	<i>Visibility (signage, lines of sight)</i>	<i>ADA</i>
☒ Secondary Arterial	☒ Moderately maintained / Variable Access	☒ High visibility	☒ Slightly accessible

Site Structures/Amenities

Type	Quantity	Cumulative Condition												Score	Comment/Notes
		Poor			Fair		Good		Excellent						
Park Shelters	1	0	1	2	3	4	5	6	7	8	9	10	4		
Playgrounds	1	0	1	2	3	4	5	6	7	8	9	10	9		
Benches (General Seating)	3	0	1	2	3	4	5	6	7	8	9	10	7		

Picnic Tables	3	0 1 2 3 4 5 6 7 8 9 10	8	
Total Score			28/40	

General Landscape/Hardscape

Type	Cumulative Condition				Score	Comment/Notes
	Poor	Fair	Good	Excellent		
Landscape	0 1 2 3 4 5 6 7 8 9 10				10	
Parking	0 1 2 3 4 5 6 7 8 9 10				5	Only street parking available
Trees	0 1 2 3 4 5 6 7 8 9 10				8	
Walkways	0 1 2 3 4 5 6 7 8 9 10				6	
Total Score					29/40	

Overall Condition

☐ Poor	☐ Fair	☒ Good	☐ Excellent
--------------------------------------	--------------------------------------	---	---

Park Summary

Strengths:

- Good park for toddlers

Challenges:

- Needs fencing to separate the park from the road
- Lack of parking (only street parking available)
- Houses nearby create a squeeze for space

Opportunities:

- A paved path to make the park more accessible would be helpful
- Adding signage would help up the usage of the park

Itani Park and Itani Linear Path

Location: 950 SW Crestview Dr

Size: 7.45 acres (park)/7.1 acres (path)

Design and Usage

<i>Classification</i>	<i>Primary Seasonal Use</i>	<i>Usage Levels (relative to other parks in the system)</i>
☒ Neighborhood Park	☒ Spring	☒ Light
	☒ Summer	
	☒ Fall	

First Impressions

Type	Cumulative Condition												Score	Comment/Notes
	Poor		Fair		Good		Excellent							
Visual aesthetics	0	1	2	3	4	5	6	7	8	9	10	7		
Branding	0	1	2	3	4	5	6	7	8	9	10	8		
Main Entrance	0	1	2	3	4	5	6	7	8	9	10	7	Somewhat difficult to find	
Safety	0	1	2	3	4	5	6	7	8	9	10	9		
Total Score													31/40	

Access and Visibility

<i>Site Access</i>	<i>Access Conditions</i>	<i>Visibility (signage, lines of sight)</i>	<i>ADA</i>
☒ Secondary Arterial	☒ Moderately maintained / Variable Access	☒ Moderate/variable visibility	☒ Not accessible
☒ Trail connection			

Site Structures/Amenities

Type	Quantity	Cumulative Condition												Score	Comment/Notes
		Poor			Fair			Good			Excellent				
Park Shelters	1	0	1	2	3	4	5	6	7	8	9	10	7		
BBQ Grills	1	0	1	2	3	4	5	6	7	8	9	10	6

General Landscape/Hardscape

Type	Cumulative Condition				Score	Comment/Notes
	Poor	Fair	Good	Excellent		
Parking	0 1 2 3 4 5 6 7 8 9 10				7	Somewhat limited
Trees	0 1 2 3 4 5 6 7 8 9 10				8	
Walkways	0 1 2 3 4 5 6 7 8 9 10				8	One walkway is paved, others are not
Total Score					23/30	

Overall Condition

☐ Poor	☐ Fair	☒ Good	☐ Excellent
--------------------------------------	--------------------------------------	---	---

Park Summary

Strengths:

- Nice trail/pathway
- Creates good neighborhood access

Challenges:

- No lighting in the park or trail
- Signage not visible from the main road, making the park hard to find

Opportunities:

- Paving more of the trails

Kruegel Park**Location:** 705 SE Dilke St**Size:** 7.95 acres**Design and Usage**

<i>Classification</i>	<i>Primary Seasonal Use</i>	<i>Usage Levels (relative to other parks in the system)</i>

Overall Condition

☐ <i>Poor</i>	☒ <i>Fair</i>	☐ <i>Good</i>	☐ <i>Excellent</i>
--------------------------------------	---	--------------------------------------	---

Park Summary

Strengths:

- Good tennis and pickleball courts
- Lots of usable open space
- Diamond field in good condition
- Nearby multiple neighborhoods

Challenges:

- Parking is limited to the surrounding streets
- Water fountains are either nonexistent or do not work

Opportunities:

- Utilizing the diamond and rectangular fields for youth sports practices
- More paths and walkways through and around the park

Mary's Park**Location:** 1570 SE Johnson Ave**Size:** 5 acres**Design and Usage**

<i>Classification</i>	<i>Primary Seasonal Use</i>	<i>Usage Levels (relative to other parks in the system)</i>

☐ Poor	☐ Fair	☒ Good	☐ Excellent
--------------------------------------	--------------------------------------	---	---

Park Summary

Strengths:

- Playgrounds
- Ample open space

- Good quality shelter and tables

Challenges:

- Not an accessible park
- Restrooms need maintenance/cleaning
- Basketball court is essentially unusable

Opportunities:

- Rectangular multi-purpose field in the park's open space
- Repairing basketball court
- Add an accessible ramp to make the park accessible

Park Summary

Strengths:

- Great modernized playground
- Good amount of usable tennis courts

Challenges:

- Topography makes a lot of the park hard to access
- Pavilion is in rough shape
- No restrooms

Opportunities:

- Making the playground more inclusive or accessible

Overall Condition

☐ Poor	☐ Fair	☒ Good	☐ Excellent
-------------------------------	-------------------------------	--	------------------------------------

Park Summary

Strengths:

- Good location with proximity to the rest of town and the RV Park
- Paved walking trail surrounding the playfields
- Good amount of bleachers
- Backstops in good condition

Challenges:

- Both infields and outfields need repair, with outfields specifically struggling to keep grass alive
- More parking is needed

Opportunities:

- Artificial turfing of the fields' outfields
- More branding and sponsorships on scoreboards or fencing banners

Park Summary

Strengths:

- High amount of shaded areas
- Good location, proximity to Reaney Park Pool
- High quality playgrounds

Challenges:

- Limited parking that is shared with the Reaney Park Pool

Opportunities:

- Inclusive/accessible playground similar to Mary's Park

- Old infrastructure/equipment

- Creation of a loop trail around the park
- Larger pavilion for gatherings

--------------------------------------	--------------------------------------	---	---

Park Summary

Strengths:

- Convenient location off of a major thoroughfare
- Landscaping is well-tended

Challenges:

- Limited parking (private lot across the street with only a few spots for the skate park in front)
- Restrooms are not usable
- Small lot
- Graffiti all over the skate park

Opportunities:

- Adding trash cans and benches (including shaded benches)
- Adding a picnic pavilion nearby

--------------------------------------	--------------------------------------	---	---

Park Summary

Strengths:

- Large amounts of open space
- Nice ponds with walkways surrounding them
- Fully or mostly accessible walkways
- Beautiful and well-tended community garden

Challenges:

- Diamond field is nearly unusable and is not kept up to date
- Tennis and pickleball courts are a little crowded and experience cracking

Total Score					56/100	

Facility Summary

Strengths:

- Only publicly available indoor aquatic center in Pullman
- Utilized by several groups including the school swim teams

Challenges:

- Relatively small amount of administrative space
- Lack of storage space (both administrative and in the pool area)
- Lack of air flow in the natatorium

Opportunities:

- Could use a diving well
- A zero-depth entry into the pool would make the aquatic center much more accessible.

General Landscape/Hardscape

Type	Cumulative Condition				Score	Comment/Notes
	Poor	Fair	Good	Excellent		
Parking	0 1 2 3 4 5 6 7 8 9 10				3	Only parking available is in a parking lot at the front of the trailhead and on Sunshine Road
Trails	0 1 2 3 4 5 6 7 8 9 10				10	Paved loop
Trees	0 1 2 3 4 5 6 7 8 9 10				8	
Walkways	0 1 2 3 4 5 6 7 8 9 10				9	
Total Score					33/40	

Overall Condition

☐ Poor	☐ Fair	☒ Good	☐ Excellent
--------------------------------------	--------------------------------------	---	---

Park Summary

Strengths:

- Long trail
- Pavement is in a good state, not aged

Challenges:

- No lighting, daylight use only
- Access to trailhead not easily found, requires entering through a parking lot

- Intersects with roadway

Opportunities:

- More dedications for the trail's benches and fountains could increase the character and culture of the trail

Lawson Gardens

Location: 705 SE Derby St

Size: 13 acres

--------------------------------------	--------------------------------------	--------------------------------------	--

Park Summary

Strengths:

- Heavily used as a premier wedding venue in Pullman, open to the public otherwise
- Aesthetics and landscaping are some of the sharpest in Pullman
- Ample parking with an immediate lot and available street parking nearby

Opportunities:

- More park shelters could be a good opportunity to increase the use of the area

Petry Natural Area

Location: Grand Avenue Greenway Path

Overall Condition

☐ Poor	☐ Fair	☒ Good	☐ Excellent
--------------------------------------	--------------------------------------	---	---

Park Summary

Strengths:

- Large natural area with a main purpose of walking
- Paved trail

Challenges:

- Access to the area could be made easier
- Lack of signage indicating where the area exactly is
- Online navigation makes it difficult to find
- Parking is limited to the streets surrounding it

Individual Assessments: Cemeteries

Lastly, the following assessments focus on the system's two public cemeteries, the Odd Fellows Cemetery and the Pullman City Cemetery.

Odd Fellows Cemetery

Location: 800 W Main St

Size: 3.75 acres

Design and Usage

<i>Classification</i>	<i>Primary Seasonal Use</i>	<i>Usage Levels (relative to other parks in the system)</i>
☒ Other (Cemetery)	☒ Winter ☒ Spring ☒ Summer ☒ Fall	☒ Rare

First Impressions

Type	Cumulative Condition										Score	Comment/Notes	
	Poor	Fair		Good		Excellent							
Visual aesthetics	0	1	2	3	4	5	6	7	8	9	10	3	
Branding	0	1	2	3	4	5	6	7	8	9	10	4	One sign
Main Entrance	0	1	2	3	4	5	6	7	8	9	10	3	
Safety*	0	1	2	3	4	5	6	7	8	9	10	4	
Total Score												14/40	

*Overall safety for the park user (sightlines, lighting, etc.)

Access and Visibility

Benches (General Seating)	3	0	1	2	3	4	5	6	7	8	9	10	10		
Signage	1	0	1	2	3	4	5	6	7	8	9	10	4	Relatively small sign	
Total Score														14/20	

General Landscape/Hardscape

Type	Cumulative Condition										Score	Comment/Notes	
	Poor		Fair	Good		Excellent							
Parking	0	1	2	3	4	5	6	7	8	9	2	No available parking, only can park on the cemetery roads	
Trees	0	1	2	3	4	5	6	7	8	9	10	Trees are a highlight of this cemetery	
Walkways	0	1	2	3	4	5	6	7	8	9	10	9	Ample amount of paved walkways and driveways
Total Score											21/30		

Overall Condition

☐ Poor	☐ Fair	☐ Good	☒ Excellent
-------------------------------	-------------------------------	-------------------------------	---

Park Summary

Strengths

- Larger of the City's two cemeteries
- Aesthetically pleasing

Challenges:

- No lighting
- Access via car can be confusing
- Lack of signage (only one small sign at the front)
- Ongoing expansion construction

Appendix E – Capital Improvement Plan

Full Dataset

Below is the full dataset of recommendations (and already approved improvements) for Pullman's 10-year Capital Improvement Plan (CIP).

General Recommendations	Low Estimate	High Estimate	Prioritization Tier	Approval Status
Establish consistent signage guidelines for parks	\$0	\$0	Critical/Sustainable Alternative	Recommended
Establish consistent design guidelines for parks (furnishings, pavilions, restrooms, lighting)	\$0	\$0	Critical/Sustainable Alternative	Recommended
Incorporate drinking fountains whenever possible	\$0	\$0	Expanded Services	Recommended
Annual ADA Improvements	\$189,000	\$189,000	Critical/Sustainable Alternative	Approved - General Fund
Maintenance and Storage Facility Building	\$258,500	\$258,500	Expanded Services	Approved - General Fund
Concrete stair replacement at corner of N Grand/Davis Way connecting lot to Olsen st	\$15,750	\$15,750	Critical/Sustainable Alternative	Approved - General Fund
Annual path crackfill & sealing	\$235,000	\$235,000	Critical/Sustainable Alternative	Approved - Metro Park Fund
Remodel parks shop	\$55,000	\$55,000	Critical/Sustainable Alternative	Approved - Metro Park Fund
Purchase new park property	\$242,000	\$242,000	Expanded Services	Approved - Metro Park Fund
Trail lighting pilot program	\$50,000	\$50,000	Expanded Services	New proposal - Metro Park Fund
Dog Park	\$100,000	\$100,000	Expanded Services	New proposal - Metro Park Fund
High St Plaza Redesign	\$75,000	\$75,000	Critical/Sustainable Alternative	New proposal - Metro Park Fund
Unidentified park & facility projects (placeholder)	\$235,000	\$235,000	Expanded Services	New proposal - Metro Park Fund
	\$1,455,250	\$1,455,250		
Bill Chipman Palouse Trailhead	Low Estimate	High Estimate	Prioritization Tier	Approval Status
Lighting additions	\$5,000	\$10,000	Critical/Sustainable Alternative	Recommended
Updated/additional signage at trailhead	\$15,000	\$25,000	Critical/Sustainable Alternative	Recommended
Additional memorials/dedications	\$5,000	\$10,000	Expanded Services	Recommended
	\$25,000	\$45,000		
Conservation Park	Low Estimate	High Estimate		
Vegetation (trees)	\$15,000	\$25,000	Critical/Sustainable Alternative	Recommended
Updated/additional signage	\$15,000	\$25,000	Critical/Sustainable Alternative	Recommended
	\$30,000	\$50,000		
Emerald Point Park	Low Estimate	High Estimate		
Playground installation	\$300,000	\$400,000	Expanded Services	Recommended

Recommended Park and Facility Development Guidelines

Neighborhood Park Cost Estimates

Below is a rough estimate of the cost of development for one neighborhood park. **Please note that all figures are ranges as there are many variables in final design and widely varying marketplace pricing. The costs below shown are based on current 2024 estimates and would need an escalation factor added to them.**

Typical Neighborhood Level Park Amenities		Low Estimate	High Estimate
Shade Structure		\$150,000	\$200,000
Grills		\$1,500	\$2,500
Playground		\$250,000	\$300,000
Loop Trail		\$125,000	\$150,000
Water Fountain		\$5,000	\$10,000
Seating		\$5,000	\$10,000
Lighting (incl. uplighting in trees)		\$30,000	\$45,000
Improved landscaping and treescaping		\$75,000	\$150,000
	Total	\$641,500	\$867,500
One other neighborhood scales amenity			
	Splash Pad	\$350,000	\$500,000
	Work Out Stations	\$2,500	\$7,500
	Basketball (half-court)	\$50,000	\$75,000
	Nature play areas	\$150,000	\$200,000
	Land acquisition (per acre)	\$50,000	\$200,000
	5 acres	\$250,000	\$1,000,000
	Grand Total	\$1,444,000	\$2,650,000

Regional Sports Complex Cost Estimates

Below is a rough estimate of the cost of development for one regional sports complex. **Please note that all figures are ranges as there are many variables in final design and widely varying marketplace pricing. The costs below shown are based on current 2024 estimates and would need an escalation factor added to them. The cost estimate below does not include land acquisition.**

Typical Athletic Complex Amenities			Minimum	Maximum
Multiple diamond ball fields			\$20,000,000	\$30,000,000
Multiple rectangular sports fields				
Playground				
Restrooms				
Loop Trail				
Water Fountains				
Seating		Grand Total:		
Concession building				
Parking				
Lighting (incl. uplighting in trees)				
Improved landscaping and treescaping				
Support amenities				

Indoor Field House Cost Estimates

Below is a rough estimate of the cost of development for one regional sports complex. **Please note that all figures are ranges as there are many variables in final design and widely varying marketplace pricing. The costs below shown are based on current 2024 estimates and would need an escalation factor added to them. The cost estimate below does not include land acquisition.**

Typical Indoor Fieldhouse Amenities		Minimum	Maximum
Multipurpose sport courts		\$12,000,000	\$18,000,000
Fitness area/weight room			
Multipurpose rooms			
Indoor walking track			
Catering kitchen	Grand Total:		
Administrative and storage areas			
Restrooms			
Parking			
Support amenities
